Problem Solving, Brainstorming, Storyboarding,
and Strategy.

Interests

Print Design: Most of my professional work has been in communication and creative packaging. I enjoy creating layouts, logos, and packaging.

Front-end Developer: I enjoy coding my website designs and solving broken code or site issues for fellow developers. Responsive design has been a current focus of mine.

Motion Design: I like being behind the camera and editing video. I also enjoy creating motion graphics and animations.

Work Experience

Predictronics Corp.

Cincinnati, Ohio
Senior Software Experience
Developer & Designer
Full time 8/2016 - 8/2024

I designed all digital and printed marketing materials including the company website. I designed multiple versions of PDX Deploy and developed the front-end of the software.

Cincinnati Children's Hospital

Cincinnati, Ohio
Freelance Digital Developer
Part time 9/2015 - 04/2016

I designed department event fliers and created department email templates. I also did user experience design on two web applications.

JCPenney

Plano, Texas
Creative Packaging Designer
Full time 1/2014 - 4/2014

I designed brand logos, packaging concepts, and new branding concepts. I also created and updated style guides for the brands.

Fiat Industrial - CNH

Burr Ridge, Illinois
Graphic Designer
Full time 8/2012 - 12/2012

I designed decals for construction and agriculture equipment, safety symbols, worked on their branding guide, and also worked on a department website.

THA.i

New York, New York
Advertising / Social Media
Full time 3/2012 - 6/2012

Designed interactive advertising for movies for use in social media and printed advertising for movies.
